SAN FRANCISCO

The Financial, Commercial and Industrial Metropolis of the Pacific Coast

BY ROBERT NEWTON LYNCH

Vice-President and Manager San Francisco Chamber of Commerce

THE City and County of San Francisco is situated on the northern extremity of the peninsula which separates the Southern half of San Francisco Bay from the Pacific Ocean. It is 46½ square miles in area and has a population conservatively estimated at 528,705.

It is the financial, commercial and industrial metropolis of the Pacific Coast.

During 1914 its bank clearings were $2,516,004,817, and the amount of building construction was $30,369,361. Among the cities of the country during 1914 San Francisco ranked:

First in actual value of land and improvements per capita.
Third in average capital per national bank.
Fifth in building contracts.
Fifth in foreign imports.
Fifth in total national banking capital.
Seventh in foreign exports of domestic goods.
Eighth in bank clearings.
Eleventh in number of manufacturing establishments.

Over one-half the population are savings bank depositors.

The total amount expended in the rebuilding of San Francisco is equal to the cost of the Panama Canal.

San Francisco has a lower percentage of bonded debt to the assessed valuation than any large city in the United States.

Of the eleven principal cities of the United States, San Francisco has the lowest percentage of mortgage indebtedness on real estate and the highest actual valuation of land and improvements per capita.

The largest fruit and vegetable cannery in the world is located in San Francisco, and the only chocolate, perfume and glass works on the Coast are doing a big business here. The largest ship-building plant, dry dock, cooperage and cordage factory in the West are located here, where nearly every variety of manufactured article is to be found.

It is of interest to note that the total value of all shipments eastbound through the Panama Canal for the first six months the waterway was open, were greater out of San Francisco than the combined shipments of all other Pacific Coast ports including Hawaii.

The San Francisco harbor front is owned by the State of California. The new docks and wharves are being built under a $10,000,000 State bond issue, the interest on same and all sinking and redemption funds being paid for out of the harbor revenues. The Embarcadero, the street fronting the harbor, is also owned by the State, which operates a Belt Line Railroad over its entire length. On January 1, 1915 the Belt Line was 20,600 feet long. Freight can be loaded directly on to the freight cars on the Belt Line from the freighter alongside the dock (the Belt Line being connected with the main lines of all the trans-continental railroads and the spur tracks serving San Francisco's industrial area), so that freight can be transferred direct from steamer to warehouse or factory.

Deep water is found at all the docks and wharves on the San Francisco water front. Typhoons and hurricanes are unknown and the greatest Pacific liners dock without difficulty in any weather and at all stages of the tide. Ten fathoms is the average depth in the Bay, so that safe anchorages are obtainable at all times. A depth of six and seven fathoms is reached at the end of all the piers. The only transport docks owned by the United States are at San Francisco.

San Francisco's postal receipts for 1914 were $3,167,133; foreign imports by sea, $69,995,216, and the foreign exports by sea, $66,122,214.

San Francisco, with its hundreds of modern hotels and apartment houses, is pre-eminently a convention city.

STREET AND AVENUE GUIDE

OF THE

CITY AND COUNTY OF SAN FRANCISCO

COMPILED FROM OFFICIAL SOURCES

EXPLANATIONS

According to the method adopted in this city for numbering buildings, Market Street is the starting point for numbers on all streets running from it in a northerly, southerly or westerly direction, and the water front for all streets running therefrom in a westerly or southwesterly direction. The numbers on all streets not commencing at Market Street or the water front run in conformity with the numbers of the main streets running parallel with them, except in the case of a few streets which are numbered in an irregular manner.

On all streets between the water front and Central Avenue the even numbers are on the right-hand side, and the odd numbers on the left, starting from the point of beginning. Beyond Central Avenue most of the streets have been numbered in a contrary manner. One hundred numbers, or as many thereof as are necessary, are allotted to each block bounded by main streets; for instance, Montgomery Street commences at Market, and the main streets crossing as you proceed north are Sutter, Bush, Pine, etc. Therefore any numbers between 1 and 100 will be found on the right or left-hand side of the street between Market and Sutter, between 100 and 200 from Sutter to Bush, between 200 and 300 from Bush to Pine.

In the streets which are numbered, a dash (——) indicates that the cross street does not extend to that side; (o), the street borders on the bay, or public park, cemetery, etc., consequently there are no buildings on blocks thus designated; (c), the street is not opened through the block, or is interrupted in its course at that point by a public square, cemetery, etc.; (e), end of street.

The following named localities referred to in the Street Directory are situated as follows: Academy Tract, northwest side of Mission Street, between Silver and Ocean Avenues, Bay Shore Tract, Crocker Estate Co., Visitacion Valley District; Bernal Heights, west of Twenty-sixth Street, between San Bruno Avenue and Mission Street; City Land Association Tract, northwest of San Jose Avenue, near County Line; Clarendon Heights, north of Twentieth Street, between Lincoln Avenue and San Miguel Rancho; College Homestead, east of Mission Street and north of Silver Avenue; Excelsior Homestead, southeast of Mission Street, near County Line; Fairmount Tract, south of Thirtieth Street and west of Mission Street; Islais Creek, from west side of San Bruno Avenue, near Silver Avenue, north and east to the bay; Laguna de la Merced, near the County Line and ocean, 6 miles southwest of City Hall; Lake View, west of San Jose Avenue, from Ocean Avenue south to Railroad Homestead; Ocean View, west of San Jose Avenue near County Line; Paul Tract, near junction of San Bruno and Railroad Avenues; Presidio Reservation, west of Lyon, and north of Pacific Avenue and Lake Street to the bay and ocean; Railroad Homestead, northwest of San Jose Avenue, near County Line; Richmond District, west of First Avenue and north of Golden Gate Park to the Presidio Reservation and ocean; Reis Tract, from San Bruno Avenue west, Visitacion Valley; San Miguel, near the junction of San Jose and Ocean Avenues: Silver Terrace Tract, between San Bruno and Railroad Avenues, south to Silver Avenue; South San Francisco, south of Islais Creek and east of San Bruno Avenue to the County Line and the bay; Spring Valley Homestead, west of Mission Street, near Silver Avenue; Stanford Heights Tract, west of Bellevue Street, from Twenty-sixth south to Thirty-first Street; Sunnydale Tract, west of San Bruno Avenue, near the County Line; Sunnyside, west of San Jose Avenue, near Ocean Avenue; Sunset District, south of Golden Gate Park from First Avenue west to the ocean; Sutro Heights, termination of Point Lobos Avenue, between Forty-eighth Avenue and the ocean; University Homestead, west of San Bruno Avenue, between Silver Avenue and Visitacion Valley; Visitacion Valley, between San Bruno Avenue and Mission Street, near County Line; West End Homestead, north and south side of County Line, near Mission Street; West End Tract, between San Jose Avenue and Mission Street near County Line; Crocker Tract, San Mateo County, take Mission Street cars; Forest Hill, west of Dewey Boulevard, foot of Ninth Avenue, near Alms House road; St. Francis Woods, between Corbet and Ocean Avenues, near Sloat Boulevard.
